Subject Index

Volume 36

Absorption, iron, soy-induced inhibition, 219
Acid
  amino
    growth of rats fed continuous intragastric infusion containing, 154
    infants, effect of sampling site, 917
    losses, during continuous ambulatory peritoneal dialysis, 395
    pattern, in severe burn patients, 416
    plasma, after evening meals, 143
    plasma and erythrocyte, effect of aspartame plus monosodium glutamate ingestion, 1145
  arachidonic, increased proportion in plasma lipids in diet of seafood, 868
  ascorbic
    content, deleterious effects of prolonged warming of meals on, 846
    deficiency, T-cell function, 127
    eggs and, 94
    in elderly, 332
    supplements, lung function and treadmill performance of smoking and nonsmoking males receiving, 840
  bile, metabolism, New World monkeys, 592
  essential fatty, deficiency, after hepatic portoenterostomy for biliary atresia, 1194
  fatty, membrane lipids and, 106
  fecal bile, in pigs, 245
  folic, polymorphonuclear leukocytes phagocytosis, 560, 561
  keto, growth of rats fed continuous intragastric infusion containing, 154
  linoleic, fatty acids and membrane lipids, 106
  linolenic, human, deficiency, 1253, 1254
  plasma fatty, changes after seafood consumption, 868
  trans fatty, metabolism, 376, 377
  uric, blood changes in Ramadan, 350
Acylcarnitine, in total parenteral nutrition, 569
Adiposity, indices in children, 178
Adolescents, breakfast habits in South Africa, 650
Age
  change, subcutaneous fat distribution, 162
  in nutritional assessment, 340
  iron status of elderly, 1032
Agglutinin, inhibition of lectin-binding, by saliva, 276
Aging
  brain structure and metabolism in, 759
  calcium loss in, 776
  diabetes and, 803
  nutrition, longevity and, 737
  obesity and, 809
  physiology of, 750
  taste acuity and, 766
Alcohol
  calcium and, in pregnant rats, 41
  diet and ischemic heart disease risks, 890
Alcoholism, thiamin in elderly, 1067
Aluminum, calcium, phosphorus and, 32
Alzheimer's disease, cholinergic precursors in neuropsychiatric diseases, 709
Amino acid
  growth of rats fed continuous intragastric infusion containing, 154
  infants, effect of sampling site, 917
  losses, during continuous ambulatory peritoneal dialysis, 395
  pattern, in severe burn patients, 416
  plasma
    after evening meals, 143
    and erythrocyte effect of aspartame plus monosodium glutamate ingestion, 1145
Amylase, secretion, effect of thiamin deficiency on pancreatic acinar cell function, 500
Anemia
  bioavailability of iron- and copper-supplemented milk for children, 1162
  iron deficiency, adjustments to, 830
  iron status of elderly, 1032
  nutritional, ferritin and iron status in Senegalese women, 314
Anergy, skin test, during hemodialysis, 1089
Announcements, 393, 566, 732, 972, 1267
Anorexia, cancer and taste, 45
Antacids, containing aluminum, effect on calcium and phosphorus metabolism, 32
Anthropometry
  breakfast habits in South Africa, 650
  effects of diet, smoking, stress, and weight gain on placentas and neonatal characteristics, 1214
  muscle composition in semistarvation, 131
  muscle mass, 680
  norms for American adults, 555, 557
  seasonal changes in nutritional status and prevalence of malnutrition in children in rural Bangladesh, 303
  South African children, 643
  worker productivity and nutrition in Kenya, 68
Appetite
  carbohydrate diets and, 463
  regulation
    effect of exercise on spontaneous calorie intake in obesity, 470
    voluntary food intake during prolonged exercise in obesity, 478
Arachidonic acid, increased proportion in plasma lipids in diet of seafood, 868
Ascariasis, nutritional status of preschool children, 79
Ascorbic acid
  content, deleterious effects of prolonged warming of meals on, 846
  deficiency, T-cell function, 127
  eggs and, 94

© 1982 American Society for Clinical Nutrition

Ascorbic acid—*Continued*
status in elderly, 332
supplements, lung function and treadmill performance of smoking and nonsmoking males receiving, 840
Aspartame, addition to meals, 1145
Atresia, biliary, essential fatty acid deficiency after hepatic portoenterostomy, 1194

Basal metabolic rate, menstrual cycle and, 611
Bed rest, fluoride studies during, 211
Benn index, body mass indices, 573
Bile
acid
fecal, in pigs, 245
metabolism, New World monkeys, 592
Bilirubin, binding, fat emulsion effect on, 521
Birth weight, relationship between various maternal body mass measures and size of newborn, 664
Blood
cord, vitamin E in, 1200
Blood, maternal, cord, and neonatal, biochemical indices of nutritional status, 630
Blood pressure
diet and ischemic heart disease risks, 890
measurements, variability, 379, 380
Body cell mass, body composition, resting metabolic rate, women and, 721
Body composition
derivation of HAT frame size model, 669
during long-term total parenteral nutrition in rat, 1119
effect of exercise on spontaneous calorie intake in obesity, 470
fat measurement by computed tomography, 172
refeeding after fasting in rats, 444
voluntary food intake during prolonged exercise in obesity, 478
Body fat, body frame size: validity of self-appraisal, 676
Body frame size
derivation of HAT frame size model, 669
validity of self-appraisal, 676
Body mass
indices
Benn index, 573
maternal, 664
relative merits of old and new, 727
skinfold thickness, 697
lean, questionnaire for measurement of habitual physical activity, 936
Body size, malnutrition and puberty, 527
Body weight, dietary potassium and exercise, 266
Bone
cortical, thinning, in primary biliary cirrhosis, 426
health, in elderly, 986, 1014
loss, in aging, 776
mineral content, infant and maternal, 438
Book Reviews, 196, 387, 562, 731, 969, 1263
Books Received, 1265
Bowel
irritable, syndrome, diet and stool characteristics, 626
short, syndrome
loss of infused minerals in, 59
neurological symptoms caused by vitamin E deficiency, 1243
Brain, structure, implication in aging, 759
Bran, wheat, bioavailability of bound niacin from, 855
Breast-feeding, food consumption in Bangladesh, 878
Breast milk, intake, 12-h versus 24-h assessment, 963
Burn, patients, plasma and urinary amino acid pattern, 416

Calcitonin, mineral homeostasis during lactation, 431
Calcium
alcohol and, in pregnant rats, 41
aluminum, phosphorus and, 32
in elderly, 986
loss
in aging, 776
of infused minerals in parenteral nutrition, 59
treatment of cortical bone thinning in primary biliary cirrhosis, 426
vitamin D in milk, 122
Calorie, expenditure, body composition, resting metabolic rate, women and, 721
Cancer, anorexia, taste, and, 45
Carbohydrate
absorption, premature infants, 910
malabsorption, in infants with rotavirus diarrhea, 1112
Carnitine
metabolism, in monkeys, 115
plasma, in total parenteral nutrition, 569
Celiac disease, pyridoxal 5′-phosphate in cerebrospinal fluid, 851
Cellulose, effects of dietary fiber on intestinal ion fluxes in rats, 1102
Cereals, bioavailability of bound niacin from wheat bran, 855
Children
adiposity indices, 178
bioavailability of iron- and copper-supplemented milk, 1162
creatinine excretion, arm muscle indicators, 691
cystic fibrosis and malnutrition, 492
food consumption in Bangladesh, 878
interaction of vitamin A and iron, 87
malnutrition
facteur thymique sérique activity, 1129
pubertal growth and, 527
oro-pharyngeal colonization in malnutrition, 284
preschool, nutritional status, antiascaris and antigiardia treatment on, 79
South African, sugar intake, weight, height and, 643
Children (*see also* Infants)
Cholesterol
biliary, New World monkeys, 592
blood changes in Ramadan, 350
dietary
eggs, ascorbic acid and, 94
New World monkeys, 592
dietary fiber, plasma lipids, glucose tolerance and, 1
high-density lipoprotein
eggs, ascorbic acid and, 94
in swimmers, 251
plasma, eggs, ascorbic acid and, 94
serum
effect of fermented and unfermented milk on, 1106
eggs, coronary heart disease and, 617
turnover in human plasma lipoproteins, 235
Choline, neuropsychiatric diseases, 709
Chromatography, high-performance liquid, quantitation

of urinary niacin metabolites by, 926
Chromium
excretion, human, 1184
insulin and, 384, 385
supplementation, human, 1184
Cirrhosis, primary biliary, treatment of cortical bone thinning, 426
Colon, function, in spouses, 290
Computed tomography, fat measurement by, 172
Copper
absorption, elderly men, 587
binding proteins in human milk, 1170
milk, bioavailability, 1162
Coronary heart disease, eggs, serum cholesterol and, 617
Corrections, 392, 974
Creatinine, excretion, in children, arm muscle indicators, 691
Cysteine, supplementation, sulfur balances in intravenously fed infants, 862
Cystic fibrosis, malnutrition in, 492

Depression, pyridoxal 5′phosphate in cerebrospinal fluid of adult celiac patients, 851
Diabetes
aging and, 803
metabolic responses to fructose and sucrose sweetened foods, 256
processing and digestibility of lentils, 1225
type 2, metabolic responses to starch in, 10
Dialysis
coils, release of trace metals during hemodialysis, 403
continuous ambulatory peritoneal, amino acid losses during, 395
Diarrhea, rotavirus, carbohydrate malabsorption in infants, 1112
Diet
breakfast habits in South Africa, 650
deleterious effects of prolonged warming of meals on ascorbic acid content and iron absorption, 846
diabetic, metabolic responses to starch, 10
European, nutritional adequacy, 366
evaluation of self-administered dietary questionnaire, 931
in spouses, colon function and, 290
in swimmers, 251
increased milk iron by, 965–967
irritable bowel syndrome, 626
ischemic heart disease risks and, 890
liquid formula, for human metabolic studies, 1087
mixed, protein evaluation, 505
nutritional status in elderly, 319
plasma amino acids after evening meals, 143
pregnancy, smoking, stress, weight gain and, 1205, 1214
rational, for elderly, 796
recall
validity, 546
of using telephone, 1234
record, validity of using telephone, 1234
sodium restricted, 1134
Dietary cholesterol, eggs, ascorbic acid and, 94
Dietary ethanol, in pigs, 245
Dietary fiber
definition, 194
plasma lipids, glucose tolerance and, 1
vegetarianism, mortality and, 873
Digestibility, study of lentils, 1225
1,25-Dihydroxyvitamin D, mineral homeostasis during lactation, 431
Disease
prevention, 977
vitamins and minerals in elderly, 979, 1083
Disuse osteopenia, fluoride balance studies during bed rest, 211

Eggs
ascorbic acid and, 94
good or bad? 1259, 1261
serum cholesterol, coronary heart disease and, 617
Elderly
calcium nutrition and bone health, 986
folate nutrition, 1060
healthy
iron status, 1032
men, copper absorption, 587
nutrition policies, 819
nutrition programs, 812
nutritional status, 319
rational diet for, 796
riboflavin status, 902
thiamin status, 1067
trace mineral nutrition, 788
vitamin C status, 332
vitamin D and bone health, 1014
vitamin D status in, 1225
vitamins and minerals related to health and disease, 979, 1083
Electrolytes, sweat, dietary potassium and exercise, 266
Emulsifier, liquid formula diet for human metabolic studies, 1087
Energy
expenditure
effect on spontaneous calorie intake in obesity, 470
voluntary food intake during prolonged exercise in obesity, 478
nutritional status in elderly, 319
refeeding after fasting in rats, 450
Enzymes, intestinal, refeeding after fasting in rats, 457
Escherichia coli, enterotoxigenic, carbohydrate malabsorption in infants with rotavirus diarrhea, 1112
Ethanol, dietary, in pig, 245
Exercise
dietary potassium and, 266
effect on spontaneous calorie intake in obesity, 470
in obesity, voluntary food intake during, 478
intensity, in swimmers, 251
lung function and treadmill performance of smoking and nonsmoking males receiving ascorbic acid supplements, 840
questionnaire for measurement of habitual physical activity, 936

Facteur thymique sérique activity in malnutrition, 1129
Fasting, blood changes in Ramadan, 350
Fasting, in rats, refeeding after, 444, 450, 457
Fat
body
body frame size: validity of self-appraisal, 676
dietary
New World monkeys, 592

Fat—*Continued*
emulsions
effect on bilirubin binding, 521
level and type
liquid formula diet for human metabolic studies, 1087
subcutaneous
distribution, 162
Fatness
effect on hemoglobin levels, 189, 191
pregnancy
hematological levels and, 729
Fatty acid, essential, deficiency after hepatic portoenterostomy for biliary atresia, 1194
Feces, irritable bowel syndrome, 626
Ferritin, in Senegalese women, 314
Fiber
diet and irritable bowel syndrome, 626
dietary
definition, 194
effects on intestinal ion fluxes in rats, 1102
plasma lipids, glucose tolerance and, 1
processing and digestibility of lentils, 1225
vegetarianism, mortality and, 873
liquid formula diet for human metabolic studies, 1087
Fibrinogen, diet and ischemic heart disease risks, 890
Fluoride, balance studies during bed rest, 211
Flux, mucosal ion, effects of dietary fiber on, 1102
Folate
in human milk, 576
nutrition in elderly, 1060
Folic acid
polymorphonuclear leukocytes phagocytosis, 560, 561
Food consumption, nutritional supplementation of low-income families at risk of malnutrition, 1153
Food efficiency, refeeding after fasting in rats, 444
Food intake, glycerol and, 262
Food labeling, public health and, 700
Food supplements, usage in seven Western states, 897
Formulas, infant, history and status, 963, 964
Framingham study, eggs, serum cholesterol, and coronary heart disease, 617
Fructose, sweetened foods, 256

Gallstones, biliary lipids in New World monkeys, 592
Gastrin, blood changes in Ramadan, 350
Giardiasis, nutritional status of preschool children, 79
Glucose
blood, response, study of lentils, 1093
kinetics, refeeding after fasting in rats, 450
metabolic responses to starch in diabetics, 10
response to fructose and sucrose sweetened foods, 256
tolerance, dietary fiber, plasma lipids and, 1
urinary chromium excretion of humans, effects of, 1184
Glutamate, monosodium, addition to meals, 1145
Glutathione peroxidase
activity
in blood of New Zealanders, effect of selenium, 24
pregnancy, 15
Glycerol, food intake and, 262
Glycogen, synthesis, refeeding after fasting in rats, 450
Government programs, nutrition labeling and public health, 700
Growth
adiposity indices in children, 178
children in rural Bangladesh, 294, 303
continuous intragastric alimentation in rats, 154
during long-term total parenteral nutrition in rat, 1119
preschool children, giardiasis, ascariasis and, 79
pubertal, childhood malnutrition and, 527

Hair, analysis, 943
Health
field study of Cuban refugees, 1255, 1257
vitamins and minerals in elderly, 979, 1083
Health food, toxicity of vitamin A supplements, 185
Heart disease
coronary, eggs, serum cholesterol and, 617
ischemic
risk factors, diet and, 890
vegetarianism, dietary fiber, and mortality, 873
Height, South African children, 643
Hematocrit, in Senegalese women, 314
Hemodialysis
release of trace metals from disposable coils during, 403
skin test anergy during, 1089
zinc and T-lymphocyte function, 410
zinc deficiency in uremia, 1177
Hemoglobin
in Senegalese women, 314
levels, effect of fatness on, 189, 191
meat iron absorption and, 187, 188
High-performance liquid chromatography, quantitation of urinary niacin metabolites by, 926
Hormone, parathyroid, mineral homeostasis during lactation, 431
Hunger, glycerol and food intake, 262
Hydroxyapatite
saliva-treated, inhibition of lectin-binding to, 276
treatment of cortical bone thinning in primary biliary cirrhosis, 426
25-Hydroxyvitamin D, mineral homeostasis during lactation, 431
Hypertension, long-term reduction in dietary sodium alters taste of salt, 1134

Immunity
cellular, ascorbic acid deficiency and scurvy, 127
nonspecific, single nutrients and, 560, 561
zinc nutrition in elderly in relation to, 1046
Infants
bone mineral status, 438
effect of sampling site on plasma amino acid concentrations, 917
fatty acids and membrane lipids, 106
feeding, fat emulsion effect on bilirubin binding, 521
food consumption in Bangladesh, 878
history and status of formulas, 963, 964
intravenously fed, sulfur balances in, 862
premature
carbohydrate absorption, 910
with respiratory distress, myofibrillar protein degradation in, 485
vitamin E in cord blood, 1200
Infants (*see also* Children)
Insulin
blood changes in Ramadan, 350
chromium and, 384, 385
dietary fiber, plasma lipids, glucose tolerance and, 1
metabolic responses to starch in diabetics, 10

response to fructose and sucrose sweetened foods, 256
Intestine, enzymes, refeeding after fasting in rats, 457
Iron
absorption, 823
deleterious effects of prolonged warming of meals on, 846
meat, hemoglobin and, 187, 188
soy-induced inhibition, 219
soy protein and, 514
in Senegalese women, 314
interaction with vitamin A in children, 87
milk
bioavailability, 1162
dietary supplementation, 554
increased, by dietary supplementation, 965–967
nutrition, of elderly, 1032
status of elderly, 1032
tourniquet, effect on trace minerals, 354
Irritable bowel syndrome, diet and stool characteristics, 626
Isotopes
radioactive, cholesterol turnover in human plasma lipoproteins, studies with, 235
stable
absorption of dietary zinc in man, 537
cholesterol turnover in human plasma lipoproteins, studies with, 235
copper absorption in elderly men, 587

Keto acid, growth of rats fed continuous intragastric infusion containing, 154

Lactation
maternal bone mineral status, 438
mineral homeostasis during, 431
Lactose, absorption in premature infants, 910
Lead, absorption, 823
Lean body mass, body composition, resting metabolic rate, women and, 721
Lectin-binding by saliva, inhibition of, 276
Legumes, processing and digestibility of lentils, 1093
Lentils, processing and digestibility, 1093
Lesions, oral, vitamin B_6 status in pregnant women, 581
Linolenic acid, human, deficiency, 1253, 1254
Lipids
absorption, treatment with medium-chain triglycerides, 950
blood, effect of milk on, 1106
plasma
increased proportion of arachidonic acid in, after diet of seafood, 868
tocopherol and, 224
serum
dietary fiber, glucose tolerance and, 1
in spouses, 290
poor design invalidates meat study, 380, 382
synthesis, refeeding after fasting in rats, 450
Lipoproteins
diet and ischemic heart disease risks, 890
high-density
in pigs, 245
in swimmers, 251
human plasma, cholesterol turnover, 235
tocopherol, plasma lipids, and, 224
vitamin E during pregnancy and in cord blood, 1200
Longevity, nutrition, aging and, 737
Lung, function, of smoking and nonsmoking males receiving ascorbic acid supplements, 840

Macaca arctoides, carnitine metabolism, 115
Magnesium, loss of infused minerals in parenteral nutrition, 59
Malnutrition
children in rural Bangladesh, 303
in cystic fibrosis, 492
nutritional supplementation of low-income families, 1153
oro-pharyngeal colonization in, 284
protein-calorie
age and sex in nutritional assessment, 340
skin-test anergy during hemodialysis, 1089
protein-energy
anthropometric measurement of muscle mass, 680
facteur thymique sérique activity, 1129
in semistarvation, 131
puberty and, 527
skeletal muscle function in, 602
Maple-syrup urine disease, total parenteral nutrition, therapy of, 359
Meat, study, poor design invalidates, 380, 382
Membrane, intestinal, effects of dietary fiber on, 1102
Menstruation
basal metabolic rate and, 611
premenstrual tension and prostaglandins E_1 and E_2, 386
Metabolism
basal, menstrual cycle and, 611
resting, rate, body composition, women and, 721
Metals
interactions, relationship between iron and lead absorption in humans, 823
trace, release from disposable coils during hemodialysis, 403
3-Methylhistidine, myofibrillar protein degradation in premature infants with respiratory distress as assessed by, 485
Microbiology, assay, folate in human milk, 576
Milk
breast, intake, 12-h versus 24-h assessment, 963
effect on blood lipids, 1106
fat, effect on blood lipids, 1106
fermented and unfermented, effect on serum cholesterol, 1106
human
folate in, 576
zinc and copper binding proteins, 1170
infant and maternal bone mineral status, 438
iron
and copper bioavailability, 1162
dietary supplementation, 554
increased, by dietary supplementation, 965–967
vitamin D in, 122
Minerals
bone, status, maternal and infant, 438
food supplement usage, 897
hair analyses, 943
homeostasis during lactation, 431
loss, short bowel syndrome, 59
nutritional status in elderly, 319
plasma trace, tourniquet effect on, 354
relating to health and disease in elderly, 979, 1083
trace, nutrition, in elderly, 788

Monosodium glutamate, addition to meals, 1145
Mortality, vegetarianism, dietary fiber and, 873
Muscle
  arm, indicators, creatinine excretion in children, 691
  composition, in semistarvation, 131
  mass, anthropometric measurement, 680
  potassium, exercise and, 266
  protein catabolism, in cystic fibrosis, 492
  skeletal
    function in malnutrition, 602
    premature infants, 485
  water, exercise and, 266
Mutagenicity, fecal, in pigs, 245
Myofibrillar protein, degradation, in premature infants with respiratory distress, 485

Neonates, biochemical indices of nutritional status, 630
Neuropsychiatric disorders, cholinergic precursors in, 709
Niacin
  bound, from wheat bran, bioavailability, 855
  metabolites, quantitation by high-performance liquid chromatography, 926
Nutrition
  aging, 735
    longevity and, 737
  anthropometric measurement of muscle mass, 680
  Benn index and body mass indices, 573
  biochemical indices in maternal, cord, and neonatal blood, 630
  body size and shape: derivation of HAT frame size model, 669
  calcium, in elderly, 986
  children, in rural Bangladesh, 294, 303
  disorders, seasonal changes in nutritional status in children in rural Bangladesh, 303
  European diets, 366
  evaluation of self-administered dietary questionnaire, 931
  field study of Cuban refugees, 1255, 1257
  folate, in elderly, 1060
  food consumption in Bangladesh, 878
  growth of children in rural Bangladesh, 294
  hair analyses, 943
  health promotion, 977
  infant
    essential fatty acid deficiency after hepatic portoenterostomy for biliary atresia, 1194
    in rural Bangladesh, 294
  iron, elderly, 1032
  labeling, public health and, 700
  parenteral, loss of infused minerals, 59
  policies, for elderly, 819
  prenatal, placenta and, 229
  programs, for elderly, 812
  riboflavin status in healthy elderly population, 902
  status
    of preschool children, antiascaris and antigiardia treatment on, 79
    worker productivity and, in Kenya, 68
  supplementation, low-income families at risk of malnutrition, 1153
  surveys
    growth of children in rural Bangladesh, 294
    seasonal changes in nutritional status in children in rural Bangladesh, 303
    within-person variability of nutrient intake in Hawaiian men of Japanese ancestry, 657
  total parenteral
    long-term, in rat, 1119
    of maple syrup urine disease, 359
    plasma carnitine in, 569
  trace mineral, in elderly, 788
  vitamin D status in healthy elderly population, 1225
  within-person variability of nutrient intake in Hawaiian men of Japanese ancestry, 657
  worker productivity and, in Kenya, 68

Obesity
  accuracy of self-reported weights, 192, 193
  adiposity indices in children, 178
  aging and, 809
  body mass indices, 697
  effect of exercise on spontaneous calorie intake in, 470
  fat measurement by computed tomography, 172
  nutritional status in elderly, 319
  South African children, 643
  treatment with carbohydrate diets, 463
  voluntary food intake during prolonged exercise in, 478
Oropharynx, colonization in malnutrition, 284
Osteopenia, disuse, fluoride balance studies during bed rest, 211

Pancreas, thiamin deficiency and, 500
Parasites, nutritional status of preschool children, 79
Parasitology, worker productivity and nutrition in Kenya, 68
Parathyroid hormone, mineral homeostasis during lactation, 431
Parenteral feeding, fat emulsion effect on bilirubin binding, 521
Parenteral nutrition
  loss of infused minerals, 59
  total
    long-term, in rat, 1119
    of maple syrup urine disease, 359
    plasma carnitine in, 569
Pectin, effects of dietary fiber on intestinal ion fluxes in rats, 1102
Phosphatidylcholine
  in infants, effect of fatty acids on, 106
  neuropsychiatric diseases, 709
Phosphatidylethanolamine, in infants, effect of fatty acids on, 106
Phosphorus
  aluminum, calcium and, 32
  vitamin D in milk, 122
Placenta
  maternal diet, smoking, stress, weight gain and, 1214
  prenatal nutrition and, 229
Plasma amino acids, after evening meals, 143
Plasma cholesterol, eggs, ascorbic acid and, 94
Plasma lipids
  increased proportion of arachidonic acid in, after diet of seafood, 868
  tocopherol and, 224
Plasma lipoproteins, human, cholesterol turnover, 235
Portoenterostomy, hepatic, for biliary atresia, essential fatty acid deficiency after, 1194

Potassium, muscle, exercise and, 266
Pregnancy
  alcohol-induced alterations in calcium metabolism in rats, 41
  blood selenium and glutathione peroxidase activity, 15
  diet, smoking, stress, and weight gain, 1205, 1214
  fatness and hematological levels during, 729
  vitamin B_6 status, 581
  vitamin E during, 1215
Presidential Address, 1250
Prostaglandins E_1 and E_2, premenstrual tension and, 386
Protein
  evaluation of mixed diets, 505
  myofibrillar, degradation, in premature infants with respiratory distress, 485
  prenatal nutrition and placenta, 229
  quality of mixed diets, 505
  soy
    inhibition of nonheme iron absorption, 219
    iron absorption and, 514
  synthesis
    refeeding after fasting in rats, 450
    thiamin deficiency on pancreatic acinar cell function, 500
  zinc and copper binding, in human milk, 1170
Protein-calorie malnutrition, age and sex in nutritional assessment, 340
Protein-energy malnutrition
  anthropometric measurement of muscle mass, 680
  in semistarvation, 131
Puberty, malnutrition and, 527
Pyridoxal 5′-phosphate, in cerebrospinal fluid of adult celiac patients, 851

Radiology, fat measurement by computed tomography, 172
Ramadan, blood changes in, 350
Refeeding, after fasting in rats, 444, 450, 457
Resting metabolic rate, body composition, women and, 721
Riboflavin, status, in healthy elderly population, 902
Rotavirus, diarrhea, carbohydrate malabsorption in infants with, 1112

Saliva, inhibition of lectin-binding by, 276
Salt, taste, long-term reduction in dietary sodium alters, 1134
Scurvy, T-cell function, 127
Seafood, increased proportion of arachidonic acid in plasma lipids in diet of, 868
Selenite, effect on glutathione peroxidase activity in blood of New Zealanders, 24
Selenium
  activity in pregnancy, 15
  supplements, effect on glutathione peroxidase activity in blood of New Zealanders, 24
Selenomethionine, effect on glutathione peroxidase activity in blood of New Zealanders, 24
Semistarvation, muscle composition in, 131
Serotonin
  metabolism, pyridoxal 5′-phosphate in cerebrospinal fluid of adult celiac patients, 851
  plasma amino acids after evening meals, 143
Serum, fluoride balance studies during bed rest, 211
Serum cholesterol, eggs, coronary heart disease and, 617
Serum lipids
  dietary fiber, glucose tolerance and, 1
  in spouses, 290
  poor design invalidates meat study, 380, 382
Sex, in nutritional assessment, 340
Skin, amino acids, effect of sampling site on plasma amino acid concentrations of infants, 917
Skinfolds, subcutaneous fat distribution, 162
Sodium, dietary, long-term reduction alters taste of salt, 1134
Soy
  protein
    inhibition of nonheme iron absorption, 219
    iron absorption and, 514
Spectrometry, mass, copper absorption in elderly men, 587
Spouses, diet and colon function in, 290
Starvation, refeeding after fasting in rats, 457
Stool, transit time, irritable bowel syndrome, 626
Stress, psychological, diet, smoking, weight gain and, 1205, 1214
Sucrose, sweetened foods, 256
Sugar, intake, in South Africa, 643
Sulfur, balances, in intravenously fed infants, 862
Sweat, electrolytes, dietary potassium and exercise, 266

Tardive dyskinesia, cholinergic precursors in neuropsychiatric diseases, 709
Taste
  acuity
    and aging, 766
    zinc nutriture in elderly in relation to, 1046
  relationship to anorexia and cancer, 45
  salt, dietary sodium intake and, 1134
Telephone
  diet recall, validity, 1234
  interview, validity, 546
Thiamin
  deficiency, effect on pancreatic acinar cell function, 500
  status in elderly, 1067
Thyroxine, blood changes in Ramadan, 350
T-lymphocytes
  ascorbic acid deficiency and scurvy, 127
  hemodialysis and, 410
Tocopherol, plasma lipids and, 224
Tomography, computed, fat measurement by, 172
Trans fatty acids, metabolism, 376, 377
Triglycerides
  blood changes in Ramadan, 350
  dietary fiber, plasma lipids, glucose tolerance and, 1
  medium-chain, update, 950
  serum, carnitine metabolism in monkeys, 115
Triiodothyronine, blood changes in Ramadan, 350
Tryptophan
  load, vitamin B_6 status in pregnant women, 581
  plasma amino acids after evening meals, 143
  pyridoxal 5′-phosphate in cerebrospinal fluid of adult celiac patients, 851

Undernutrition, worker productivity and nutrition in Kenya, 68
Uremia
  amino acid losses during continuous ambulatory peri-

Uremia—*Continued*
toneal dialysis, 395
zinc deficiency, 1177
Uric acid, blood changes in Ramadan, 350

Vegetarianism, dietary fiber, mortality and, 873
Vitamin A
fortification, in children, 87
interaction with iron in children, 87
toxicity in health food users, 185
Vitamin B_6, deficiency, pregnant women, 581
Vitamin C, status in elderly, 332
Vitamin D
in elderly, 1014
in milk, 122
maternal and infant bone mineral status, 438
status, in healthy elderly population, 1225
treatment of cortical bone thinning in primary biliary cirrhosis, 426
Vitamin E
deficiency, in short bowel syndrome, neurological symptoms, 1243
during pregnancy and in cord blood, 1200
plasma lipids and, 224
Vitamins
food supplement usage, 897
hair analyses, 943
relating to health and disease in elderly, 979, 1083

Water, muscle, exercise and, 266
Weaning, food consumption in Bangladesh, 878
Weight
birth, relationship between various maternal body mass measures and size of newborn, 664
gain, diet, smoking, stress, pregnancy and, 1205, 1214
lean body
body frame size: validity of self-appraisal, 676
body size and shape: derivation of HAT frame size model, 669
self-reported, accuracy, 192, 193
South African children, 643
Wheat bran, bioavailability of bound niacin from, 855
Work capacity, adjustments to iron deficiency anemia, 830
Wound, healing, zinc nutriture in elderly in relation to, 1046

Zinc
binding proteins in human milk, 1170
deficiency
hemodialysis and, 410
uremia, 1177
dietary, absorption in man, 537
facteur thymique sérique activity in malnutrition, 1129
hemodialysis and, 410
loss of infused minerals in parenteral nutrition, 59
nutriture in elderly, 1046
release from disposable coils during hemodialysis, 403
tourniquet effect on trace minerals, 354
